

PROFESSIONAL POWER TOOLS

Built for the Trade. Ready for Anything

When the job's on the line, you need tools that work as hard as you do.

The new JCB Professional Power Tools deliver serious power, industrial-grade performance, and the reliability you expect from JCB.

With rugged, stylish compact design inspired by the machines that build the world, every tool is engineered to take on the toughest jobs and keep going.

Combi Drills	06 - 09
Hammer Drill	10 - 11
Impact Driver	12 - 15
Impact Wrenches	16 - 19
Angle Grinders	22 - 27
Die Grinder	28 - 31
Multi Tool	32 - 35
Jigsaw	36 - 39
Circular Saw	40 - 43
Orbital Sander	44 - 47
Grease Gun	48 - 51
Batteries	52 - 57
Power Tool Kits	58 - 63

- **Brushless motors** for more power, longer runtime and reduced maintenance*.
- **Electronic protection** with dust-sealed PCBs and anti-kickback control on select models.
- **High-capacity batteries** with heavy-duty overmoulds for durability on site.
- **Fully compatible 18v platform** and professional warranty.

Made for hard work...

The JCB 18v Professional Power Tool Range

DRILLS

18V COMBI DRILL

BODY ONLY

JCB-18PCD-160

TECHNICAL SPECIFICATION

Voltage: 18v
 Motor Type: Brushless
 Torque: 160Nm
 Gears: 2
 Settings: 25 + 3 (Screw, Hammer, Drill)
 No Load Speed: 0-550 / 0-2,200/min
 Impact Rate: 0-8,250 / 0-33,000bpm
 Chuck: ROHM 13mm
 Anti-Kickback Control
 Dust Protection PCB
 LED Light
 New Weight (Tool Only): 2.1kg

A heavy-duty Professional Combi Drill for demanding applications. With a class-leading 160Nm of torque, it's built to outperform in concrete, masonry, and metal. Ideal for general builders, mechanical engineers, and agricultural users working on installations and maintenance. Safety features such as kickback control and rugged build quality supports users in harsh environments where failure is not an option.

ANGLE GRINDERS

18V ANGLE GRINDER 125MM/5" **BODY ONLY**

JCB-18PAG-125

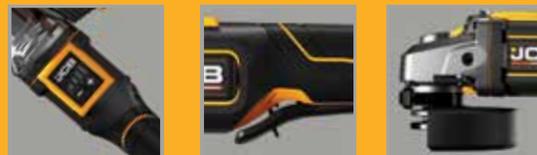

TECHNICAL SPECIFICATION

Voltage: 18v
Motor Type: Brushless
Disc Diameter: 125mm (5")
No Load Speed Min: 3,000/min
No Load Speed Max: 9,000/min
Variable Speed: 4 Speed Digital Control
Switch Type: 2-Stage Paddle Switch
Side Handle: Anti-vibration
Electric Brake: Yes
Dust protected PCB: Yes
Guard type: 2-in-1 - Cutting/Grinding
Disc Fitting Type: Tool Free
Spindle Thread: M14

Built for precision and power, the JCB Pro Angle Grinder range includes standard and flat-head options tailored for cutting, grinding, and polishing. Whether in fabrication, vehicle repair, or structural site work, these grinders deliver the torque and speed needed for demanding applications. Anti-vibration handles, paddle switches, and digital speed control allow for safe, confident operation over extended periods.

CIRCULAR SAW

18V CIRCULAR SAW **BODY ONLY**

JCB-18PCS-185

TECHNICAL SPECIFICATION

- Voltage: 18v
- Motor Type: Brushless
- Blade Diameter: 185mm
- No Load Speed: 0-5,500/min
- Bevel Capacity: 50°
- Max Cutting 0°: 65mm
- Max Cutting 45°: 43mm
- Tool Hook: Yes
- Electric Brake: Yes
- Dust protected PCB: Yes
- Guard material: Aluminium
- LED Light

This Circular Saw is ideal for working on MDF, plywood and timber and features a 24-tooth TCT blade that can deliver bevel cuts up to 50°. The all-metal gearbox gives added durability, while the hex key lets you make any quick on-the-job tweaks. Safety features include an electric brake and lock-off switch. The compact dimensions mean it's comfortable to handle and easily portable, making it ideal for both the professional and the skilled trades person.

IN THE BOX...

JCB CIRCULAR SAW - BODY	40T MULTI-MATERIAL BLADE
PARALLEL GUIDE	37mm VACUUM ADAPTER
24T WOOD TCT BLADE	HEX KEY

TOOL HOOK

ORBITAL SANDER

18V ORBITAL SANDER

JCB-18POS-125

BODY ONLY

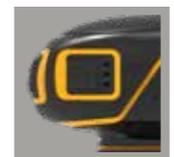

TECHNICAL SPECIFICATION

- Voltage: 18v
- Motor Type: Brushless
- Pad Diameter: 125mm
- No Load Speed: 8-12,500/min
- Variable Speed: Yes, 3 (Digital Control)
- Dust Sealed Switch
- Dust Protected PCB

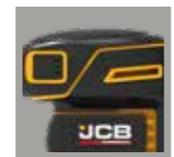

The Orbital Sander is a vital tool for both professionals and skilled enthusiasts looking to achieve a smooth finish on various surfaces. This power tool operates by rapidly rotating the sanding disc in a circular motion, allowing for efficient sanding without leaving swirl marks.

IN THE BOX...
 JCB ORBITAL SANDER - BODY
 4x MESH SANDING SHEETS (40g, 80g, 120g, 180g)
 DUST BAG

E-TECH BATTERY & CHARGER TECHNOLOGY

Power and Flexibility

At JCB Tools, we're dedicated to equipping professionals with the most advanced, reliable, and high-performing tools on the market. Our latest innovation, E-Tech Pro Battery Technology, is built to deliver maximum power, extended runtime, and unmatched durability - even in the most demanding jobsite conditions.

Key Benefits:

- **Over-Charging Protection** - Prevents damage to the battery by automatically stopping the charge once full, ensuring long-term reliability.
- **High and Low Temperature Protection** - Maintains optimal performance and safeguards against extreme temperatures for consistent operation in any climate.
- **Overload Protection** - Protects both the battery and tool from damage caused by excessive power draw during heavy-duty applications.
- **Over-Current Protection** - Prevents potential circuit damage by controlling current flow for safe, stable performance.
- **Short Circuit Protection** - Detects and stops electrical faults instantly, providing maximum user and tool safety.
- **Cell Capacity Balance Protection** - Ensures even energy distribution across all cells, extending battery lifespan and improving efficiency.
- **Pre-Charging Function** - Soft-start charging reduces stress on battery cells, enhancing long-term durability.
- **Defective Fault Indication** - Built-in diagnostics alert you to battery faults early, minimising downtime and maintenance issues.

Performance Advantages

- **Advanced Cooling Technology** - Keeps your battery operating efficiently, even under intense workloads.
- **Increased Power Output** - Delivers strong, consistent performance across all JCB cordless tools.
- **Built to Last** - Rugged construction and smart protection features ensure exceptional durability.

WHAT IS AN E-TECH BATTERY?

JCB's advanced E-Tech batteries feature intelligent cooling technology to prevent overheating and maximum runtime*.

Part of the JCB One Battery System, these batteries are fully compatible across the entire JCB cordless range, providing true flexibility and efficiency on every project.

COMPATIBLE WITH ALL OUR 18v POWER TOOLS
(INCLUDING THE PREVIOUS GENERATION)

*The charge and run times are based on charger type used, tool used, and application, load etc.

High Capacity Batteries

The 4.0 Ah battery stores twice the energy of a standard 2.0 Ah pack, so it runs for longer between charges. It keeps a compact shape, uses higher-density lithium-ion cells, and delivers steady power under heavy use. This combination of increased amp-hours, efficient cooling, and a compact build is what makes it a high-capacity option

4 Powerful Sizes
